

# Bever Team Online - Grouting

## Efficient reporting and analysis for Grouting

Reports, compiling data and analysis for grouting

- Web-Based program with no installation needed
- Automatic reports after every grouting round or with given time intervals if internet is present at the face.
- Import from AMV, Logac and other grouting rigs that are equipped with Bever Grouting.
- Possible export of MWD-data and project structure to the grouting rig if it is equipped with Bever Grouting.

### Reports

Download selected umbrellas:

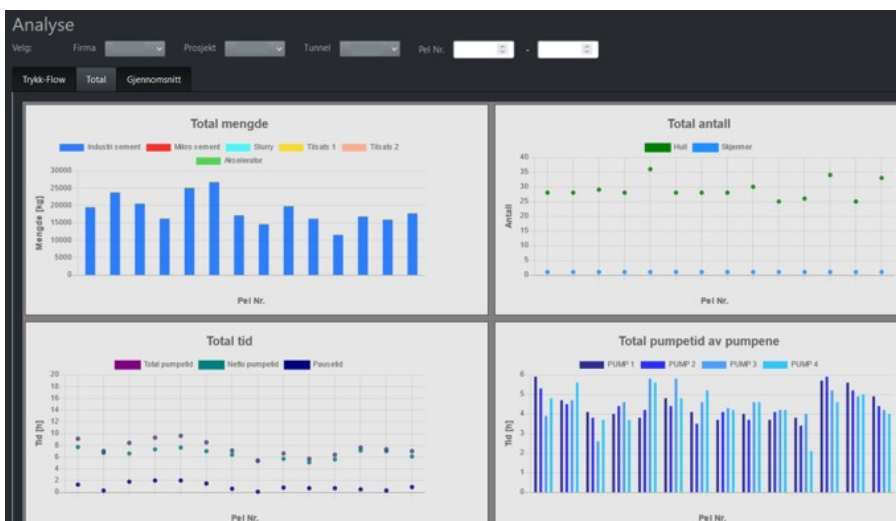

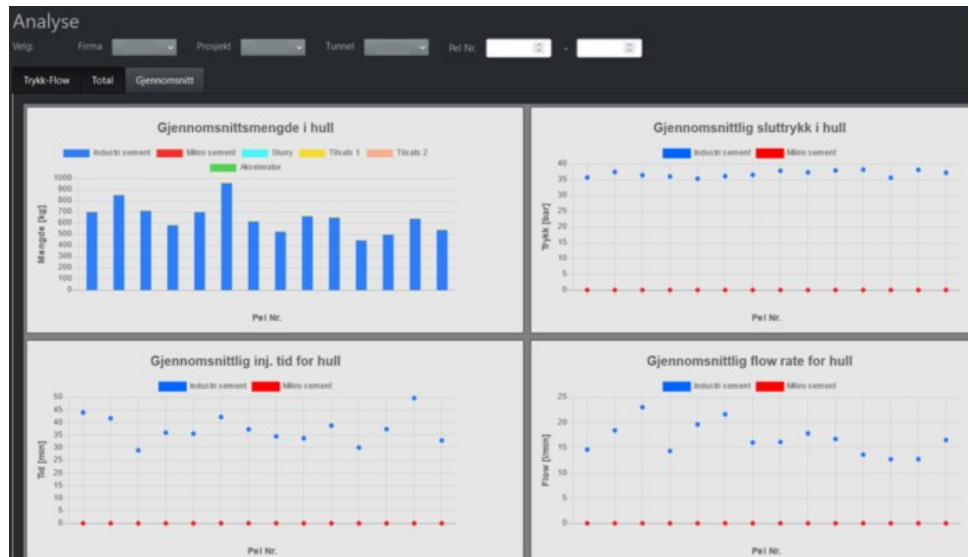

- TestProject
  - adkomst
    - Chainage 1353
      - Umbrella 1
